Soft Skills : Effective Communication, Team Collaboration, Time Management, Fast Learner

Projects

TripLink | A Travel Buddy Finder Social Platform

[Live Website](#) | [Frontend Code](#) | [Backend Code](#)

TripLink is a platform connecting travelers for shared trips. Users can post, search, and request to join trips, with features like secure authentication and profile management. An admin dashboard allows for user and trip oversight.

- Travelers can share trips, search by destination, dates, and type, and connect with like-minded individuals.
- Detailed travel posts with descriptions, itineraries, and photos; users can request to join trips.
- Admin dashboard for managing user accounts and travel posts, ensuring content quality.

Stack: NextJS, ReactJS, TypeScript, JS, MUI, Redux, Axios, JWT, NodeJS, ExpressJS, Prisma, Zod, Bcrypt, PostgreSQL

Task Manager | Trello-Inspired Task Management App

[Live Website](#) | [Code](#)

A Trello-style task management app that allows users to create boards, lists, and tasks. It supports multi-directional drag-and-drop functionality, rich text task descriptions, comments, and interactive checklists with progress tracking.

- Drag-and-drop tasks and lists across boards using a multi-directional system, like Trello's behavior.
- Add and edit rich text descriptions and comments using the React Quill text editor.
- Interactive checklists with item tracking, percentage-based progress, dynamic updates.

Stack: React JS, JavaScript, HTML, CSS, React Quill
